

Experiencing Art and Design

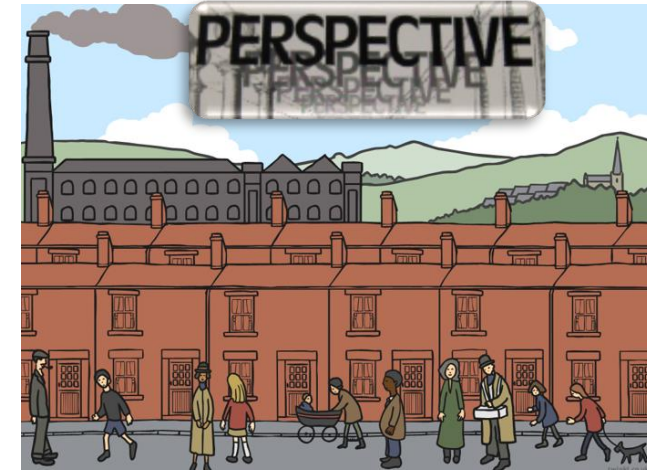

Year 5

Period – Naïve art

I have been exploring Sketching and Painting and I have learnt...

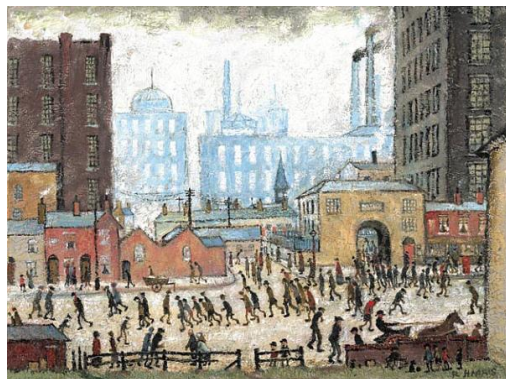

- L.S Lowry** (Laurence Stephen Lowry) was born in Stretford, Manchester on the 1/11/1887.
- He came from a well-off family but his paintings were of working class people.
- He is best known for his paintings of industrial scenes in his home town of Manchester.
- His work can be identified by his matchstick men, women and cats and dogs, who were not very detailed.

Lots of Lowry's paintings show very big areas of the city. In them, you can see things that are close and things that are far away.

Artists do this to make their pictures show big spaces, like you can see when you go outside in real life.

This is called **perspective**.

Coming from the mill
1930

Word	Definition
Perspective	Perspective drawing brings two dimensional drawings and paintings to life . Perspective drawings make 2D objects appear three-dimensional. As objects get further away from the viewer, they appear to decrease in size at a constant rate.
Composition	Composition is the term given to a complete work of art and, more specifically, to the way in which all its elements work together to produce an overall effect . E.g. <i>foreground, middle ground, background</i> .
Observation	Observational drawing is where you draw something that is right in front of you or to use it as inspiration for your own drawing.
